

# Horizon

BINDERY CONTROL SYSTEM

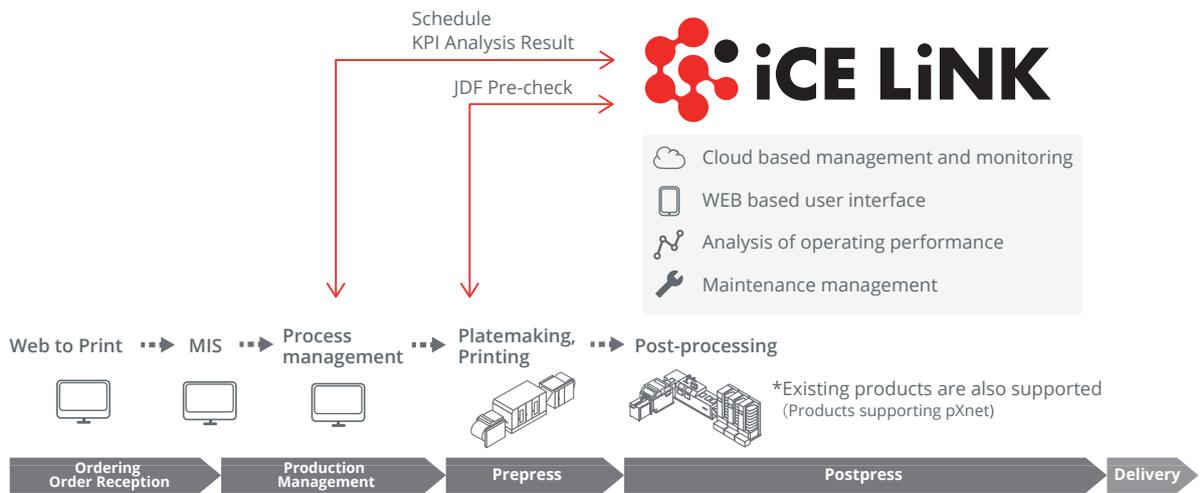

# ICE LiNK

Manage your bindery  
with ICE LiNK

# ALL CONNECTED... AUTOMATE THE FINISHING PROCESS THROUGH INTERGRATION.

iCE LiNK is a cloud based workflow management system which can manage multiple finishing devices and optimize production to create a new work environment and a higher level of efficiency. The iCE product series is a new product line-up which is designed to provide added value to our customers, enable a more integrated operation, and advanced automation to provide increased efficiency and productivity.

## iCE Series

- i** = Intelligence, Integration, Interaction
- C** = Connection
- E** = Efficiency

## BENEFIT

- ICE LiNK is a cloud based service used to manage multiple systems, monitor system status in real time, and to enable acquiring and analyzing information.
- The status of the Horizon products can be managed across the network and provide a notifications such as replacement of parts to increase up time of equipment.
- ICE LiNK is available as a subscription service. You can select from the 3 upgradeable editions including IoT Basic, Automation and Enterprise.

### THREE EDITIONS OF ICE LiNK

iCE LiNK is available in 3 packages for your convenience, depending on your workflow needs. It can be upgraded as required.

#### 1. IoT Basic

Monitors the operating status of the equipment in real time.

#### 2. Automation\*

JDF workflow can be created with this edition. Linked with MIS and Prepress to automate and optimize your operation.

#### 3. Enterprise\*

This edition includes all functions such as job scheduling and task management in addition to the 2 editions above. Optimize staffing and machine operation for efficient production.

\*Editions of Automation and Enterprise will be released in the third quarter of 2021. The specifications are subject to change without notice.
